Profile

With **5 years** of experience in full stack and blockchain development, I am a passionate and determined developer. My goal is to continue learning and excelling in the field of blockchain, in order to actively contribute to this rapidly expanding ecosystem.

Languages

French, English

Interests

Technology and Innovation
Blockchain
Finance
Real Estate
Sports

Technical Skills

Programming Languages

TypeScript	Solidity	NestJs	Docker
React/Next.js	Rust	Database	AWS
Tailwind	Circom	ORM	Grafana
Angular	Noir-lang	Sequelize	Elasticsearch
Bootstrap	Hardhat/Forge	Prisma	Redis
	Subgraph	GraphQL	

Experiences

Morpho 2024 - Present

Blockchain Developer

I focus on developing and optimizing future versions of Morpho, leveraging **JavaScript-driven technologies** to enhance scalability, performance, and seamless integration.

Onbrane 2023 - 2024

Lead Blockchain Developer

I developed a decentralized financial application EVM for a financial company that has seen **€5 trillion +** exchanged, using cryptographic techniques such as **ZKP** and **homomorphic encryption** to ensure the privacy of debt products.

Hexalabs 2022 - 2023

Full Stack & Blockchain Developer

I developed frontends with Next.js, deployed blockchain projects in Solidity (**DeFi, NFT Marketplace**, etc.), and built backends.

Toys films 2020 - 2022

Full Stack Developer

Education

Hetic university 2017 - 2020

Computer science bachelor

Training focused on real-time 3D content creation, covering **applied mathematics** and **web development**.
