Technical Skills

Programming Languages

JavaScript	NestJs	Solidity	Grafana
TypeScript	SQL/NOSQL	Rust	Elasticsearch
React/Next.js	Sequelize	Circom	AWS
Angular	TypeORM	Noir-lang	
HTML/CSS	Prisma	Hardhat/Forge	
Tailwind	GraphQL	Ethers.js/Wagmi	
Bootstrap	Redis	Subgraph	
	Docker		

Experiences

Onbrane   2023 - Present

Lead Blockchain Developer

I develop a decentralized financial application EVM, using cryptographic techniques such as ZKP and homomorphic encryption to ensure the privacy of debt products.

Hexalabs   2022 - 2023

Full Stack & Blockchain Developer

I developed frontends with React.js and Next.js, deployed blockchain projects in Solidity (DeFi, NFT Marketplace, etc.), and configured backends.

Toys films   2020 - 2022

Full Stack Developer

With Angular and various node.js frameworks, I designed innovative solutions for major clients such as L'Oréal, Microsoft, and Air Liquide.

Education

Hetic   2017 - 2020

Bachelor's in Real-time 3D

Training focused on real-time 3D content creation, covering applied mathematics and web development.
